

ROAD SKILLS

teen car control clinic

This intensive clinic is a terrific way to teach young drivers the fundamentals of car control. It is designed to equip students with necessary skills to handle emergency situations and avoid accidents.

How the clinic works:

In your own car, trained instructors will provide hands-on, in-car training that consists of 4 hours of classroom, 4 hours of on-course driving exercises, and a reference manual for home study.

In-car exercises include:

- Emergency braking techniques
- Slalom course to demonstrate weight transfer of the vehicle
- Car handling during wet road conditions using a skid pad
- Sudden lane changes simulating accident avoidance
- A final road course that combines elements from each previous exercise

WHAT THEY LEARN COULD SAVE THEIR LIVES!

Sunday, May 22, 2011

Dakota County Technical College

8am - 5pm

Cost: \$20 (includes lunch & t-shirt)

**For more information and to register go to
www.myautoevents.com**

Once at myautoevents look to the upper left corner to the "quick find" search box. Type in; RoadSkills and you will be directed to the sign up page for the school.
